

CALIFORNIA NULIFE SURROGACY GC ADMISSION COMPLICATION CHECK LIST

Please note that California NuLife Surrogacy has compiled these gestational carrier admission criteria based on the collective guidelines from the clinics and medical doctors we partner with. This form will be used to better assist both intended parents and surrogates during the matching process. By following these specific medical screening guidelines, we aim to streamline the process and save valuable time for medical clearance.

Any item marked indicates what the clinics are WILLING to accept for gestational surrogates
